The Affective or Feeling Domain: Like cognitive objectives, affective objectives can also be divided into a hierarchy (according to Krathwohl). This area is concerned with feelings or emotions (and social/emotional learning and skills). Again, the taxonomy is arranged from simpler feelings to those that are more complex.

~~Three Domains of Learning—Cognitive, Affective ...~~

In essence, Vygotsky recognizes that learning always occurs and cannot be separated from a social context. Consequently, instructional strategies that promote the distribution of expert knowledge where students collaboratively work together to conduct research, share their results, and perform or produce a final project, help to create a collaborative community of learners.

Social media is a Wikipedia for students these days. We are witnessing an era of social media learning. 3. Parental Involvement. Social media help the parents stay involved in the child ' s learning. Via the school ' s Twitter or Facebook feed parents can be updated on school-related activities, projects, and events that are happening.

## ~~Social Media In Education: Can They Improve The Learning ...~~

A collaborative (or cooperative) learning approach involves pupils working together on activities or learning tasks in a group small enough for everyone to participate on a collective task that has been clearly assigned. Pupils in the group may work on separate tasks contributing to a common overall outcome, or work together on a shared task.

The adults will facilitate the progression in learning by planning appropriate activities. They will:

- Support children in their play
- Provide good quality resources
- Be aware of the potential learning in all areas of the curriculum
- Model skills involved in play
- Interact with the children, asking questions and making suggestions
