And the Sun Pursued the Moon explores the economic, political, and symbolic processes by which early Makassar communities were incorporated into this regional system. As successive empires like Srivijaya, Kediri, Majapahit, and Melaka gained hegemony over the region; they introduced different models of kingship in peripheral areas like the Makassar coast of South Sulawesi.

the relationship between symbolic knowledge and traditional royal authority in Makassar society, Thomas Gibson draws on a wide range of sources and academic disciplines. He shows how myth and ritual link practical forms of knowledge (boat-building, navigation, agriculture, warfare) to basic social categories such as gender and hereditary rank, as well as to environmental, celestial, and cosmological phenomena. He also shows how concrete historical agents have used this symbolic infrastructure to advance their own political and ideological purposes. Gibson concludes by situating this material in relation to Islam and to life-cycle rituals.

As each successive model of royal power gained currency, it became embedded in local myth and ritual. To better understand the relationship between symbolic knowledge and traditional royal authority in Makassar society, Thomas Gibson draws on a wide range of sources and academic disciplines. He shows how myth and ritual link practical forms of knowledge (boat-building, navigation, agriculture, warfare) to basic social categories such as gender and hereditary rank, as well as to environmental, celestial, and cosmological phenomena. He also shows how concrete historical agents have used this symbolic infrastructure to advance their own political and ideological purposes. Gibson concludes by situating this material in relation to Islam and to life-cycle rituals.

This is a love story, but its radically different because the love of God breaks into the novel like a whirlwind. What is the price of such love? Are the characters, especially one young woman, able to accept the magnificent challenge? The plot is woven around this theme of love--human and divine with the golden thread of the gospel of St. John binding it together. Its a story of mystery and suspense in the lives of characters who are very much like you and I. Pursued by Love is a fascinating story which describes the path of love meant to be trod by each of us on our journey through life. Human love and divine love are chronicled in expressive, well-written prose. The reader is captivated by descriptions of the interior life and the interaction between that and a beautiful love story, which are then wrapped in a tantalizing mystery. A good read, I would recommend this book to anyone who wishes to journey with a woman who has discovered the rich life of the interior castle. --Ann Daly, SNDdeN

Michael Rudy is a professional assassin who is comfortable with his ruthless job until the day he decides he has had enough. After he loots cash meant for an impending drug deal and flees America for Paris to live out the rest of his days in peace, an unanticipated darkness follows him. Even after he is reunited with Stacy, the only woman he has ever loved, their reignited passion emerges from tragedy. Stacy and her associate, Arnaud, begin to suspect there is something too coincidental between Michael's appearance in Paris and their organizations' downfall. The wrong people are dying and no one seems to know why or who is behind it. As Michael, Stacy, and Arnaud all attempt to follow the seemingly unconnected events, friends turn into enemies and contacts go cold. While Michael is forced to choose between lying to Stacy or to the people who want him to kill again, Stacy is compelled to question whether her love for Michael can withstand the chaos that surrounds them. Even if they survive, will their passion for each other continue? *Pursued* weaves betrayal and blackmail with passion and love amid the streets of Paris as a renowned assassin discovers it may be more difficult to escape his past than he realized.

This early verse, even in its most abandoned forays into Sensibility, the Gothic, political satire, and vulgarity—perhaps especially in these most apparently idiosyncratic gestures—provides telling access to its own cultural moment, as well as to Shelley's art and thought in general."—from the Editorial Overview
