What has happened to America, and what's become of the American dream? Behind the self-confident image of world's most influential country, we now see a nation tearing itself apart. The United States

may be arguably the world's only superpower, but its internal tensions are a symptom of suffering and division, a condition only exacerbated by the election of President Donald Trump. In this searing account, expatriate journalist Alan Friedman returns after thirty years in Europe and examines the real America through the mouths of its citizens. Set against the backdrop of the 2016 presidential election campaign and the inauguration of President Trump, Friedman tells a vivid story of terrible inequality - from the excesses of Wall Street to the grinding poverty of Mississippi - and explores the issues, from racism and gun control to Obamacare, that have polarised a nation. Drawing on his personal interviews with Trump and with Russia's President Putin, Friedman paints a detailed portrait of the new leader of the free world and explores the real risks of the Trump presidency for America and for the world. Dark and provocative, *This Is Not America* may just be the most important book of the year.

Winner of the 2012 Costa Poetry Award, the latest collection by Kathleen Jamie, "the leading Scottish poet of her generation" (The Sunday Times) See when it all unravels—the entire project reduced to threads of moss fleeing a nor'wester; d'you ever imagine chasing just one strand, letting it lead you to an unsung cleft in a rock, a place you could take to, dig yourself in—but what are the chances of that? Of the birds, few remain all winter; half a dozen waders mediate between sea and shore, that space confirmed—don't laugh—by your own work. —from "Materials" *The Overhaul* continues Kathleen Jamie's lyric inquiry into the aspects of the world our rushing lives elide, and even threaten. Whether she is addressing birds or rivers, or the need to accept loss, or, sometimes, the desire to escape our own lives, her poetry is earthy and rigorous, her language at once elemental and tender. *The Overhaul* is a midlife book of repair, restitution, and ultimately hope—of the wisest and most worldly kind.

At the center of this remarkable 1621 play is the story of Elizabeth Sawyer, the titular "Witch of Edmonton," a woman who had in fact been executed for the crime of witchcraft mere months before the play's first performance. Described by the authors as a tragi-comedy and drawn in part from a pamphlet account of the trial then circulating, the play not only offers a riveting account of the contemporary superstitions embodied by the figure of the witch, but also delivers an implicit critique of the society that has created her. This edition of the work offers a compelling and informative introduction, thorough annotation, and a selection of contextual materials that helps set the play in the context of the "witch-craze" of Jacobean England.

The first piece of known typewriter art was a "drawing" of a butterfly by Flora F. F. Stacey in 1898; since then, artists, designers, poets, and writers have used this rigorous medium to produce an astounding range of creative work. This beautiful book brings together some of the best examples by typewriter artists around the world. As well as key historical work from the Bauhaus, H. N. Werkman, and the concrete poets, there is art by contemporary practitioners, both typewriter artists who use the keyboard as a "palette" to create artworks, and artists/typographers using the form as a compositional device. The book will appeal to graphic designers, typographers, artists, and illustrators, and anyone fascinated by predigital technology.

It's been over twenty years since his death. Now, this beloved and unforgettable champion's final hours. On May 1, 1994, at Bologna's Ospedale Maggiore, Ayrton Senna, three-time Formula 1 world champ, lay dying after a tragic accident at the Grand Prix of San Marino. The idea for this monograph (and the exhibition at the Museo della velocità dell'Autodromo Nazionale in Monza) stems from the book *Suite 200: L'ultima notte di Ayrton Senna* (published by 66th and 2nd, 2014) written by the journalist Giorgio Terruzzi. An enthralling story with details on the final moments of Senna's life and thoughts as the fateful hour approached. Through a selection of approximately one hundred photographs by Ercole Colombo—the famous Formula 1 photographer—this monograph aims to narrate the career as well as the most intimate aspects of the Brazilian car racer's life. A fanciful story, enriched by the writings of Giorgio Terruzzi, who covers the most important moments in Ayrton Senna's life: his legendary wins, his defeats, the loss of his friends, the great rivalry with other drivers, his emotions and family relationships, and finally the terrible accident where he lost his life.

Karen E. Bender burst on to the literary scene a decade ago with her luminous first novel, *Like Normal People*, which garnered remarkable acclaim. *A Town of Empty Rooms* presents the story of Serena and Dan Shine, estranged from one another as they separately grieve over the recent loss of Serena's father and Dan's older brother. Serena's actions cause the couple and their two small children to be banished from New York City, and they settle in the only town that will offer Dan employment: Waring, North Carolina. There, in the Bible belt of America, Serena becomes enmeshed with the small Jewish congregation in town led by an esoteric rabbi, whose increasingly erratic behavior threatens the future of his flock. Dan and their young son are drawn into the Boy Scouts by their mysterious and vigilant neighbor, who may not have their best intentions at heart. Tensions accrue when matters of faith, identity, community, and family all fall into the crosshairs of contemporary, small-town America. *A Town of Empty Rooms* presents a fascinating insight into the lengths we will go to discover just where we belong.

Beryl lives in a world full of toys. But these aren't your ordinary toys—they're mechanical marvels that almost seem alive! And at the slightest touch, these toys "catalyze," that is, they merge with their owner and give them special abilities. But not Beryl. She's a Neon Knight, and Neon Knights can't catalyze. Beryl does have a special ability that no one knows about—she's an inventor who can turn a broken toy into an amazing, new creation. When a powerful Oxygen Knight named Coro discovers Beryl's secret workshop, she wants in on the fun. But can a Neon Knight and an Oxygen Knight ever get along?
