Who would guess that Godzilla, the Invisible Man, Elvis, Donald Duck, Ted Williams, and the Three Stooges might have something to say about the love and loss that shape the way we see the world? And yet these are the pop-culture coordinates that chart the emotional life brilliantly mapped out in Paul Guest's second book of poems. Winner of the Prairie Schooner Prize in Poetry, this collection plumbs the depths of nature and culture (how, for instance, 'gar' in Old English means 'spear,' and an octopus can lose a limb during mating) to give form to the darkness and the light that make us human. ø In poetry whose tone is largely one of lament tempered by a wry and intelligent humor, Paul Guest does what a poet does best: he gives us the moments of his life refashioned to reflect the larger arc and meaning of our own?of life, that is, writ large.

Brice Dellsperger's Body Double is the first monograph ever published on the artist's already cult film productions, with a long essay by art historian Marie Canet that addresses filmic remake, but also issues of models, gender politics, and representational chaos. Consisting in a large body of unpublished images, the book also invites the reader backstage—as in Kenneth Anger's Hollywood Babylon, after which this book is modeled—into the Dellspergian camp film factory, to get a closer look at the characters and personas that populate the Body Double series, and that are creations both of the artist and of his main performer and muse, Jean-Luc Verna. Co-published with Toastink Press

Presenting two decades of work by Abigail Solomon-Godeau, Photography after Photography is an inquiry into the circuits of power that shape photographic practice, criticism, and historiography. As the boundaries that separate photography from other forms of artistic production are increasingly fluid, Solomon-Godeau, a pioneering feminist and politically engaged critic, argues that the relationships between photography, culture, gender, and power demand renewed attention. In her analyses of the photographic production of Cindy Sherman, Robert Mapplethorpe, Susan Meiselas, Francesca Woodman, and others, Solomon-Godeau refigures the disciplinary object of photography by considering these practices through an examination of the determinations of genre and gender as these shape the relations between photographers, their images, and their viewers. Among her subjects are the 2006 Abu Ghraib prison photographs and the Cold War-era exhibition The Family of Man, insofar as these illustrate photography's embeddedness in social relations, viewing relations, and ideological formations.

A dark, glittering debut novel echoing Hitchcock's Vertigo, The Body Double is the suspenseful story of a young woman who is recruited by a stranger to give up her old life and identity to impersonate a reclusive Hollywood star. A strange man discovers our nameless narrator selling popcorn at a decrepit small-town movie theater and offers her an odd and lucrative position: she will forget her job, her acquaintances, even her name, and move to Los Angeles, where she will become the body double of the famous and troubled celebrity Rosanna Feld. A nervous breakdown has forced Rosanna out of the public eye, and she needs a look-alike to take her place in the tabloid media circus of Hollywood. Overseen by Max, who hired her for the job, our narrator spends her days locked up in a small apartment in the hills watching hidden camera footage of Rosanna, wearing Rosanna's clothes, eating the food Rosanna likes, practicing her mannerisms, learning to become Rosanna in every way. But as she makes her public debut as Rosanna, alarming questions begin to arise. What really caused Rosanna's mental collapse? Will she ever return? And is Max truly her ally, or something more sinister?

In 1987, Latif Yahia was taken to Saddam's headquarters to meet Uday, Saddam's eldest son, and told that a great honour has been bestowed upon him: that because of the great likeness between them, he had been chosen to be Uday's double. For many Iraquis, it would have been the highlight of their lives, but for Latif, a peace-loving man who did not agree with Saddam's brutal regime, it was not. He refused. Following a week of torture and realising he would be killed if he continued to refuse, Latif was forced to accept the role. After a gruesome training programme during which he was made to watch over thirty films of torture, hours of tapes of Uday, and undertake a final remodelling of his appearance, Latif was deemed ready. But it was only after the final test, a meeting with Saddam himself, that Latif made his first public appearance. And so began his life as Uday's double - a life on the perimeter of the inner circle of Saddam's eldest son, a witness to the horror of his insane life of debauchery, excess and brutality, and an experience for which he almost paid with his life on more than one occasion. THE DEVIL'S DOUBLE: is the first of 3 autobiographical books chronicling Latif Yahia's incredible life story. It vividly describes how Latif was forced to become Uday Hussein's 'fidai' (body double) and gives a unique insight into the extreme extravagance and cruelty of the Saddam regime. Latif survived assassination attempts and witnessed Uday's psychotic temper, rapes, orgy parties, torture atrocities, and sadistic murders. The book has recently been made into a highly acclaimed movie. THE BLACK HOLE: gives a fascinating account of what happened to Latif in Europe after he escaped from Iraq. How he was treated by western governments and the CIA. How Uday sought revenge on Latif and vice-versa. How he was offered a British passport by Saudis to murder a dissident and how they beheaded Latif's Saudi princess lover. How Latif made and lost a fortune. How he strived in vain for a peaceful life and survived 4 more assassination attempts. Forty Shades of Conspiracy: brings Latif's story right up to date by detailing his time in Ireland. His run-ins with drug-dealers, Corrupt Irish Garda officers and Irish politicians who continually denied him Irish citizenship. His despair as a beggar on the streets and the happiness he found after he met the love of his life. His reaction to Uday and Saddam's deaths and his opinion on the current political situation in Iraq all makes fascinating reading. Book Description: In 1987, Latif Yahia was taken to Saddam's headquarters to meet Uday, Saddam's eldest son, and told that a great honour had been bestowed upon him: that because of the great likeness between them, he had been chosen to be Uday's double. A note from the Author : This book was written in 1992, originally it was 1,000 pages long with even more facts and details than contained in the pages herein, because of it's size the original publisher trimmed it down to the 300 or so pages that it is today. After the fall of Saddam Hussein and his regime in 2003 the facts in this book were confirmed. Many of Uday Hussein's employees found new masters over the years since my flight from Iraq, some work for the US intelligence services, some for the UK, but no matter how they may try to discredit me and my story the facts remain and as you now know I had already put them on paper in 1992, eleven years before the regime fell. I did not have a crystal ball to know all these things, I knew them because I was there, that was my life. Uday's employees have admitted in the Western media to being Pimps for him, they also admit to working as spies against him for the US and the UK intelligence services in return for citizenship of the respective country, what I ask is this, If a man is willing to sell women to a man that he knows to be a sadist, if he is willing to sell his country and himself, is it not then conceivable that he will sell his soul and say anything for money? I have paid a high price for my refusal to co-operate with the intelligence services, the CIA in particular, after twenty years in the West I am still stateless, I cannot return to Iraq because the new Government consider me a collaborator of the Hussein regime, although while they were in opposition to Saddam they found my book to be a useful tool against him and his regime. Saddam while in power considered me a traitor. I do not regret my decision to leave Iraq or write my story, but I have not found the Western governments to be as open and democratic as they were portrayed to us in the Middle-East. In my search for a new counry to call home, I have found that those whose story is a fabrication are given the protection of the state as they are no threat, money is their only goal in life so they will not rock the boat, while I, who have an opinion and voice it openly (that is probably my biggest problem) am ignored, refused and while not told to leave am not made especially welcome either, I am tolerated. I do not nor did I ever seek fame, I have not made money from my story and if I do it will go to charity. It amuses me how the tables turn, when Saddam was in power my book was held up in the US Congress and given as a reason for Saddam's removal, now that Saddam is gone those that once used my story for their benefit have tried to denounce me, I have been interviewed by the world's biggest and best names over 1,800 TV, Print and Radio, journalist's who do their research and know who to ask for opinion, the old guard who took pride in their work and valued their reputation. While there are still some true journalists out there many work to order if their editor wants a specific story they make it, true or not, there is no oversight. Although it was never my intention, this book has been used as propaganda for the War on Iraq, my intention when I wrote it was to open the eyes of the world to the horrors and atrocities committed by the regime and to spur the Iraqi people into action. It will always disturb me that the Iraqi people never had a chance to participate in The Arab Spring and depose Saddam and his regime themselves, It may be a very different place today if they had had the chance to do so. Best regards to all, Latif Yahia .
