Prepare for a successful career as a community/public health nurse! Public Health Nursing: Population-Centered Health Care in the Community, 9th

File Type PDF Community Health Assessment Sherburne County Minnesota 205710

Edition provides up-to-date information on issues that impact public health nursing, such as infectious diseases, natural and man-made disasters, and health care policies affecting individuals, families, and communities. Real-life scenarios show examples of health promotion and public health interventions. New to this edition is an emphasis on QSEN skills and an explanation of the influence of the Affordable Care Act on public health. Written by well-known nursing educators Marcia Stanhope and Jeanette Lancaster, this comprehensive, bestselling text is ideal for students in both BSN and Advanced Practice Nursing programs. Evidence-Based Practice and Cutting Edge boxes illustrate the use and application of the latest research findings in public/community health nursing. Healthy People 2020 boxes highlight goals and objectives for promoting the nation's

File Type PDF Community Health Assessment Sherburne County Minnesota 285718

health and wellness over the next decade.

Levels of Prevention boxes identify specific nursing interventions at the primary, secondary, and tertiary levels.

Practice Application scenarios help you apply chapter content to the practice setting by analyzing case situations and answering critical thinking questions.

Linking Content to Practice boxes provide examples of the nurse's role in caring for individuals, families, and populations in community health settings. Unique!

Separate chapters on healthy cities, the Minnesota Intervention Wheel, and nursing centers describe different approaches to community health initiatives.

Community/Public Health Nursing Online consists of 14 modules that bring community health situations to life, each including a reading assignment, case scenarios with learning activities, an assessment quiz, and critical thinking

safety goals, knowledge, competencies and skills, and attitudes can be applied to nursing practice in the community.

This Revised Reprint of our 8th edition, the "gold standard" in community health nursing, *Public Health Nursing: Population-Centered Health Care in the Community*, has been updated with a new Quality and Safety Education in Nursing (QSEN) appendix that features examples of incorporating knowledge, skills, and attitudes to improve quality and safety in community/public health nursing practice. As with the previous version, this text provides comprehensive and up-to-date content to keep you at the forefront of the ever-changing community health climate and prepare you for an effective nursing career. In addition to concepts and interventions for individuals, families, and communities, this text also incorporates

File Type PDF Community Health Assessment Sherburne County Minnesota 205710

real-life applications of the public nurse's role, Healthy People 2020 initiatives, new chapters on forensics and genomics, plus timely coverage of disaster management and important client populations such as pregnant teens, the homeless, immigrants, and more. Evidence-Based Practice boxes illustrate how the latest research findings apply to public/community health nursing. Separate chapters on disease outbreak investigation and disaster management describe the nurse's role in surveilling public health and managing these types of threats to public health. Separate unit on the public/community health nurse's role describes the different functions of the public/community health nurse within the community. Levels of Prevention boxes show how community/public health nurses deliver health care interventions at the primary, secondary, and tertiary levels of

File Type PDF Community Health Assessment Sherburne County Minnesota 205718

prevention. What Do You Think?, Did You Know?, and How To? boxes use practical examples and critical thinking exercises to illustrate chapter content. The Cutting Edge highlights significant issues and new approaches to community-oriented nursing practice. Practice Application provides case studies with critical thinking questions. Separate chapters on community health initiatives thoroughly describe different approaches to promoting health among populations. Appendixes offer additional resources and key information, such as screening and assessment tools and clinical practice guidelines. NEW! Quality and Safety Education in Nursing (QSEN) appendix features examples of incorporating knowledge, skills, and attitudes to improve quality and safety in community/public health nursing practice. NEW! Linking Content to Practice boxes provide real-life
