Golding's iconic 1954 novel, now with a new foreword by Lois Lowry, remains one of the greatest books ever written for young adults and an unforgettable classic for readers of any age. This edition includes a new Suggestions for Further Reading by Jennifer Buehler. At the dawn of the next world war, a plane crashes on an uncharted island, stranding a group of schoolboys. At first, with no adult supervision, their freedom is something to celebrate. This far from civilization

they can do anything they want. Anything. But as order collapses, as strange howls echo in the night, as terror begins its reign, the hope of adventure seems as far removed from reality as the hope of being rescued.

Parents long to help their children reach their full potential. They schedule regular medical exams, get them involved in planned activities, help them with their homework, and invest for their college education. Yet while they may plan for their success, they can overlook a vital part of their personal development: nurturing and encouraging a solid, lasting foundation of faith. We often assume that children are growing spiritually through church youth groups and programs. But it's essential that parentstake an active,

reluctant to pass a national organ transplant law for more than three decades? This book analyzes the national debate over organ transplantation in Egypt as it has unfolded during a time of major social and political transformation—including mounting dissent against a brutal regime, the privatization of health care, advances in science, the growing gap between rich and poor, and the Islamic revival. Sherine Hamdy recasts bioethics as a necessarily political project as she traces the moral positions of patients in need of new tissues and organs, doctors uncertain about whether transplantation is a "good" medical or religious practice, and Islamic scholars. Her richly narrated study delves into topics including current definitions of brain death, the authority of Islamic fatwas, reports about the mismanagement of toxic waste predisposing the poor to

organ failure, the Egyptian black market in organs, and more. Incorporating insights from a range of disciplines, *Our Bodies Belong to God* sheds new light on contemporary Islamic thought, while challenging the presumed divide between religion and science, and between ethics and politics.

The category of the "West" has played a particularly significant role in the modern Eastern Orthodox imagination. It has functioned as an absolute marker of difference from what is considered to be the essence of Orthodoxy and, thus, ironically has become a constitutive aspect of the modern Orthodox self. The essays collected in this volume examine the many factors that contributed to the "Eastern" construction of the "West" in order to understand why the
