Fifth Edition Features New or expanded coverage of The impact of taxes and depreciation on for-profit providers Medical coding Monte Carlo simulation Form 990 Fund accounting Recent information on healthcare reform includes coverage of accountable care organizations (ACOs) and medical homes with updated real-world examples Updated financial accounting coverage conforms to the latest AICPA formats New learning aids, including on-page definitions, For Your Consideration scenarios and Key Equations quick-reference tools

Instructor Resources Case questions and solutions, complete instructor versions of the spreadsheet models, PowerPoint slides, and a transition guide to the new edition. Student Spreadsheets (click here for access) With this casebook, students have the opportunity to apply finance principles and concepts to settings that simulate actual work environments. In that way, the book allows instructors to create a bridge between academic learning and applied practice. Each of the 32 finance cases presents a scenario and relevant background on a healthcare organization and poses a financial management issue that students must analyze in order to recommend appropriate courses of action. The majority of cases are accompanied by spreadsheet models to help students perform the required analyses. The casebook also contains seven qualitative mini-cases created to highlight the ethical dilemmas that occasionally arise in the practice of healthcare finance. Important changes to this edition: All cases have been updated, and many have been revised extensively, including new exhibits, timely topics, and new calculations Two new cases have been added to the book: One focuses on bond refunding and the other covers revenue cycle management A new mini-case focuses on the potential ethical conflicts involved with physician-owned distributors (PODs) The PowerPoint slides have been changed to allow instructors to first present a short introduction to the case and then, after students have competed their analyses, review each case by discussing three key learning points

This new edition of Financial Management of Health Care Organizations offers an introduction to the most-used tools and techniques of health care financial management, including health care accounting and financial statements; managing cash, billings and collections; making major capital investments; determining cost and using cost information in decision-making; budgeting and performance measurement; and pricing. Now completely updated, this book provides students with the practical, up-to-date tools they need to succeed in this dynamic field. Provides an introduction to the most-used tools and techniques of health care management. Additional questions and problems for the chapters. Updated perspectives throughout the text. Instructor's Manual available on CD-ROM including all exhibits in PowerPoint and Excel, answers to all problems in PowerPoint and Excel, and working spreadsheet models of exhibits and selected problems for classroom use. Accompanying website features links to related websites, glossary, and downloadable Instructor's Manual and sample chapters. www.blackwellpublishing.com/zelman

The essential concepts of both accounting and financial management are covered in this best-selling healthcare finance book. Through clear explanations, numerous examples, and realistic practice problems, it arms future managers with the grounding they need to make financially sound decisions for their healthcare organizations. This thoroughly updated edition provides more emphasis on the unique marketplace for healthcare services and additional examples from nonhospital settings, including medical practices, clinics, home health agencies, nursing homes, and managed care organizations.

Revised edition of: Cases in healthcare finance / Louis C. Gapenski, George H. Pink. Fifth edition. [2014]

Health Care Finance: Basic Tools for Nonfinancial Managers is the most practical financial management text for those who need basic financial management knowledge and a better understanding of healthcare finance in particular. Using actual examples from hospitals, long-term care facilities, and home health agencies, this user-friendly text includes practical information for the nonfinancial manager charged with budgeting. The Fourth Edition offers: -An expanded chapter on Electronic Records Adoption: Financial Management Tools & Decisions -New chapter: ICD-10 Adoption and Healthcare Computer Systems -New chapter: Other Technology Adoption and Management Decisions -New chapter: Strategic Planning and the Healthcare Financial Manager -New case study: "Strategic Planning in Long-Term Care" that connects with the chapter on strategic planning -New appendix: "Appendix C: Employment Opportunities in Healthcare Finance"

Health Care Administration continues to be the definitive guide to contemporary health administration and is a must-have reference for students and professionals. This classic text provides comprehensive coverage of detailed functional, technical, and organizational matters.

"This best-selling textbook covers the essential concepts of accounting and financial management in healthcare"--

Instructor Resources: Test Bank, PowerPoint slides, a sample course syllabus, solutions to the end-of chapter questions and problems, and solutions to the online cases. To see a sample, click on the Instructor Resource sample tab above. Bonus Chapters 14-17 Student Companion Website - Cases Student Companion Website - Appendix A Student Companion Website - Appendix B Corrections Fundamentals of Healthcare Finance, in its second edition, continues to be ideal for individuals needing basic healthcare finance skills. This easy-to-read, content-filled book presents a broad overview of healthcare finance, but focuses on tasks that are essential to the operational management of clinical services, including estimating costs and profits, planning and budgeting, analyzing new equipment purchases, using metrics to monitor operations, and working with financial statements. To assist the learning process, this book includes critical concepts, practical scenarios, self-test questions, industry-practice sidebars, and a running glossary. The second edition has been thoroughly updated, including its many real-world examples. In addition, a section on healthcare reform has been added that includes discussions of value-based purchasing, bundling, accountable care organizations, and medical homes. Additional features in the second edition include updated accounting coverage that conforms to the latest AICPA formats and a new student engagement tool, For Your Consideration sidebars, which present scenarios designed to make students think about current, sometimes controversial, issues. Companion website includes: Bonus chapters that cover financial markets and securities; lease financing and business valuation; distributions to owners; and capitation, rate setting, and risk sharing Appendices of financial and operational ratios and their definitions Introductory, real-world cases with questions intended for either self-directed learning or in-class use Companion casebook Cases In Healthcare Finance, Fifth Edition is an ideal supplement to this text. Through real-world cases, it provides the opportunity to bridge the gap between learning concepts in a lecture setting and applying these concepts on the job. Be better prepared to deal with the multitude of issues that arise in the practice of healthcare finance.
