In 2027, the Great Disruption shook the world. An unexplained solar storm struck the earth, shifting it four degrees south on its axis. Everything went dark. Humanity was on the verge of despair. Thanks to the teachings of the Chronicles, hope has been restored, cities rebuilt, technology advanced. The books also have a different owner: Logan Cutler, who inherited them when Camden mysteriously disappeared. But when Logan auctions off the books to pay his debts, they fall into the wrong hands. The Reges Hominum, a clandestine group that once ruled history from the shadows, is launching a worldwide conspiracy to regain control. Soon Logan realizes he's made a terrible mistake. With the help of special agent Valerie Perrot and the wisdom of the Chronicles as his guide, he embarks on an epic quest to get the books back before it's too late. Abounding with questions about humanity's secret past and its unknown future, Journey into the Flame will not only take you to the start of an incredible new world, it will also take you deep into the greater mysteries of the self.

Book 1 of the YA apocalyptic Wasteland trilogy. When environmental collapse forces the Job Creators to retreat to sealed domes, those left behind have two choices: fight for survival or perish. For years, seventeen-year-old Alessandro Bonanno has managed to scrape out a living by digging out scrap from derelict buildings. Were it not for his determination to save his seven-year-old brother, Enzo, Alessandro might have chosen the easy way out, as his father has, disappearing down a bottle of cheap liquor. Alessandro's situation becomes far more precarious and dangerous when the Creators flee, taking all semblance of law and order with them. With no other options, he agrees to work for a crime lord in exchange for protection for himself and his brother. But the deeper the crime lord draws Alessandro into her web, the more he fears he and his brother will never escape. Born seventeen years ago on a Creator's farming collective, Valeria Lagunes has never known anything other than a life of toil under the relentless sun. Despite what the Creators' propaganda insists, crop yields are dwindling with each passing year, begging the question of which lives will be prioritized when there isn't enough food to go around. Yet as terrified as Valeria is of the impending famine, those fears are nothing compared to what her community must face when the Creators abandon them. Suddenly, the people of the collective are no longer just simple farmers. In this new lawless world, they must become warriors in order to defend their own. But can Valeria live with herself when forced to make decisions that go against every conviction she holds most dear?

In modern-day England, where witches live alongside humans, Nathan, son of a White witch and the most powerful Black witch, must escape captivity before his seventeenth birthday and receive the gifts that will determine his future.
