Our world is no longer our own. We engineered a race of superior fighters--the Manti, mutant humans with insect-like abilities. Twenty-five years ago they all but destroyed us. In Sanctuary, some of us survive. Eking out our existence. Clinging to the past. Some of us intend to do more than survive. Asha and Pax--strangers and enemies--find themselves stranded together on the border of the last human city, neither with a memory of how they got there. Asha is an archivist working to preserve humanity's most valuable resource--information--viewed as the only means of resurrecting their society. Pax is Manti, his Scarab ship a menacing presence in the skies over Sanctuary, keeping the last dregs of humanity in check. But neither of them is really what they seem, and what humanity believes about the Manti is a lie. With their hearts and fates on a collision course, they must unlock each other's secrets and forge a bond of trust before a rekindled conflict pushes their two races into repeating the mistakes of the past. bittersweet spirit and fairy sightings. One night a handsome Irishman approaches her, introducing himself as Edward Donoghue. Edward takes absinthe to relieve his sleepwalking, and she is eager to hear whether he has experience with fairies. Instead, she discovers that he's the earl of Meath, and that he will soon visit a mysterious ruin at Newgrange on the orders of his cousin, the beautiful, half-mad Queen Isolde. On learning about Ada's area of study, he invites her to accompany him. Ada is torn between a sensible fear of becoming entangled with the clearly troubled gentleman and her compelling desire to ease his suffering. Finally she accepts his invitation, and they arrive in time for the winter solstice. That night, the secret of Edward's affliction is revealed: he is, in fact, a lord in two worlds and can no longer suppress his shadow self. Little does either of them realize that their blossoming friendship—and slowly kindling passion—will lead to discoveries that wrench open a door sealed for centuries, throwing them into a war that will change Ireland forever.

In the aftermath of Ireland's battle with her ancient enemies, Queen Isolde orders her cousin, smuggler Duncan O'Malley, to assume the throne of fairy as King Finvara. He's a fish out of water when it comes to nurturing the alliance between Ireland's mortal and fairy peoples. And the queen wants him to wed

the daughter of Ireland's enemy, the king of Icelandic shadow elves, to help keep the peace. But the Irish think of the elves as goblins, and Finvara refuses. Elven princess Koli, affronted by the king's rejection—along with his decision to bring her to court as little more than a captive—vows vengeance. Shortly after her arrival, she uncovers a plot that would bring swift satisfaction. A dark and powerful fairy lord, Far Dorocho, wants to take Finvara's crown and lead both the fairy and elven people to war against the Irish. And he wants Koli to help him. It's the perfect setup for revenge, but Koli soon discovers that Finvara's not the haughty lord she believed him to be. And as she navigates treacherous waters inside the court, she gets glimpses of the magic and passion that have been slumbering inside her. She must choose a side in the new battle for Ireland—will it be the fearsome father she has served for nearly a century, or the fairy king who has helped awaken her to herself?

Colorado woman, had her lover Gary Adams murder two of her three husbands. But more interesting than the crime itself is Olsen's portrait of Nelson as a brash, trashy, manipulative sexpot who believed that she was entitled to (and got) everything and everyone she wanted: even her confession, given freely to police in a Pizza Hut restaurant, was anything but contrite. Moreover, Olsen records the recollections of many community members who saw Nelson for what she was, yet seemed oblivious to the adultery, theft and murder under their noses (Publisher's Weekly).
