It started with the Storms.The world got too hot too fast. The weather wrecked Hell on man's shiny, pretty civilization. With the heat and wet came bugs, with bugs came new diseases, and man's numbers and sanity dwindled.The survivors reformed governments like petty shadows of the world's old empires. They sought answers and justifications, they sought redemption for what they perceived as man's holy smiting>Welcome to the Arizona Reformed Theocracy, otherwise called The Zona.Here the Church rules with power absolute. The laws are simple, all sin is punished swiftly. Preachers enforce the Church's words like old West lawmen.But what happens when a Preacher refuses to kill? What happens when men of honor take a stand against their rulers?

Shrubs of broom grow black and twistedAs if by Devil's fingers And the wind that never ceases, Like a chorus from the dead. Those who lived here it's for certain, would grow dark and tortured too' In Jamaica Inn, at the heart of the bleak Bodmin Moor, young Mary Yellen soon discovers mysterious goings-on in the dead of night. But worse is yet to come as Mary finds herself helplessly ensnared in the deadly activities taking place around her. Evocative, atmospheric and chilling, this new adaptation of Jamaica Inn has all the hallmarks of a great adventure classic — murder, mystery and malevolence. Jamaica Inn was produced at the Salisbury Playhouse in May 2004and was followed by a UK tour.

In 1956, two Bell Labs scientists discovered the scientific formula for getting rich. One was mathematician Claude Shannon, neurotic father of our digital age, whose genius is ranked with Einstein's. The other was John L. Kelly Jr., a Texas-born, gun-toting physicist. Together they applied the science of information theory—the basis of computers and the Internet—to the problem of making as much money as possible, as fast as possible. Shannon and MIT mathematician Edward O. Thorp took the "Kelly formula" to Las Vegas. It worked. They realized that there was even more money to be made in the stock market. Thorp used the Kelly system with his phenomenally successful hedge fund, Princeton-Newport Partners. Shannon became a successful investor, too, topping even Warren Buffett's rate of return. Fortune's Formula traces how the Kelly formula sparked controversy even as it made fortunes at racetracks, casinos, and trading desks. It reveals the dark side of this alluring scheme, which is founded on exploiting an insider's edge. Shannon believed it was possible for a smart investor to beat the market—and William Poundstone's Fortune's Formula will convince you that he was right.
