Radiation From Space Section 1 Reinforcement Answers

The radiation environment of deep space is different from that on the Earth's surface or in low Earth orbit, due to the much larger flux of high-energy galactic cosmic rays (GCRs), along with radiation from solar proton events (SPEs) and the radiation belts . Galactic cosmic rays (GCRs) consist of high energy protons (85%), helium (14%) and other high energy nuclei (HZE ions).

Health threat from cosmic rays - Wikipedia

1 Power of constable to stop and search persons, vehicles etc. E+W (1) A constable may exercise any power conferred by this section— (a) in any place to which at the time when he proposes to exercise the power the public or any section of the public has access, on payment or otherwise, as of right or by virtue of express or implied permission; or (b) in any other place to which people have ...
