The RUGER®MODEL 10/22®rifles are autoloading, recoil operated rifles. Retracting the bolt handle cocks the internal hammer and compresses the recoil spring. When the bolt is manually released, it moves forward (driven by the recoil spring), strips a cartridge from the magazine, if a loaded magazine is in place, and chambers the cartridge.

Product History - Ruger
With millions sold over a span of more than half a century, the Ruger® 10/22® has long been America's favorite rimfire rifle. When it comes to choosing your next .22 rifle, don't settle for an imitation, make it an original. This legendary action is a tried and true Ruger design that ensures consistent, reliable performance. Detachable 10-round rotary magazine features a unique rotor to

The Ruger 10/22 is one of the most popular .22-caliber rifles of all time. It is relatively inexpensive, exceptionally reliable and accurate, and easy to work on, and parts are widely available. But as good as these versatile little rifles are, they can be made even better with a little work on their triggers, actions and barrels.
