Setup Requirements and Tech Specs. Wi-Fi Network Requirements In order for your Canary Flex to connect to your Wi-Fi network, it will need to meet the following requirements: Your Wi-Fi network broadcasts at 2.4 GHz or 5 GHz (802.11 a/b/g/n). Your network upload speed is greater than 1 Mbps. iOS Requirements To set up your Canary Flex using an iOS device, it must be running iOS 8 or newer.

Canary Flex User Guide

Register a Canary account by completing the Sign up process on my.canary.is. Android. Open the Canary app and tap Get Started. Type your email address and password in the corresponding fields. Tap Next when you're finished. Follow the onscreen instructions. After creating your account, a series of onscreen prompts will guide you through the setup process.

How do I set up my Canary? – Canary Help Center

Welcome to the OpenCanary guide. OpenCanary is a daemon that runs canary services, which trigger alerts when (ab)used. The alerts can be sent to a variety of sources, including syslog, emails and a companion daemon opencanary-correlator. The Correlator coalesces multiple related events (eg. individual brute-force login attempts) into a single alert sent via email or SMS.

OpenCanary — OpenCanary 0.4 documentation

Airthings product manuals for homeowners, business and professionals. Manuals for all Airthings radon detectors and indoor air quality monitors.

User Manuals - Airthings

Canary's smart alerts distinguish between people and motion and include an image thumbnail, so you know in an instant whether a family member, foe, or a four-legged friend is in your home. Security that pays for itself. Since 2015, Canary users have saved more than an estimated \$5M on insurance premiums just by owning a Canary device.

Canary - A complete security system in a single device.
