~~Grow Up With Vertical Gardening | Veggie Gardener~~

To start a vertical garden with cuttings, add a wire screen in the box. This helps hold both the soil and the plants. After working in the right quick-draining soil, gently push treated cuttings through the holes and allow time for rooting. Then just hang on your wall. Once roots are in place, they hold the soil.

~~Vertical Succulent Garden — How To Grow Succulents Up A Wall~~

A vertical garden has gravity which is always pulling down on it. This makes it difficult for healthy roots to develop. Because of this, you should start your plants indoors until they are thriving. When the plants are vigorous, you can plant them in the vertical garden.
