The "Race Developed" Yamaha RD series gained popularity in early 1970's due to success of Yamaha motorcycles on the racing grounds. Its success started with two almost identical race bike models - RD250 & RD350. The 1973 Yamaha RD350 directly evolved from Yamaha R5, while Yamaha RD 250 type 352 was an improved version of Yamaha DS7.

Interestingly, none of the other RD models including the RD125, the RD250, RD350 or RD400 had electric starting. With the RD200, Yamaha clearly had its sights on the beginner motorcyclist looking for a cheap and fun way to get to work and around town.
